

Navajo Transit System
Division of General Services
The Navajo Nation

Navajo Transit System (NTS) is a department under the Division of General Services within the Navajo Nation Government and is funded primarily through the New Mexico and Arizona Departments of Transportation. NTS administers and operates inter-city fixed route transportation services for the general public.

The Navajo Transit System (NTS) provides public transportation services to 41 chapters out of 110 Navajo Chapter communities; many fixed routes operate along state highway. NTS buses pick up passengers at designated stops.

Navajo Transit System is the only public transit system on a Navajo Nation, serving within Arizona and New Mexico. Most NTS customers use the service to reach shopping centers, health care facilities, employment, education, training and other business related to personal or family need. Personal transportation resources are not readily available to elderly people so the transit system is the most beneficial, convenient and cost-effective for their use. NTS carriers stop at all medical facilities on the route they travel.

The demand for services exceeds the number of buses and routes because the Navajo Nation occupies a substantial land area with a large population, long driving distances between destinations. With the limited number of routes available now, and the confinements of buses to major highways, many people who want services are not able to reach locations where buses normally pick up passengers.

Current Navajo Transit System routes are as follows:

- Route 1: Tuba City, AZ to Window Rock, AZ and return
- Route 2: Toyeyi, AZ to Window Rock, AZ and return
- Route 3: Kayenta, AZ to Window Rock, AZ and return
- Route 4: Crownpoint, NM to Window Rock, AZ and return
- Route 5: Gallup, NM to Window Rock, AZ and return
- Route 6: Navajo and Gallup, NM to Window Rock, AZ and return
- Route 7: Shiprock, NM to Window Rock, AZ and return

The Shiprock to Window Rock route is available only twice weekly. All other routes are run on a daily basis. Communities and Chapters located between the established origin and final destination have access to transit services. Bus stops at selected sites are available for passengers.
